Young Fives

Young Fives is a high-quality program that supports young learners who may benefit from a transitional year. Children adjust to the social and academic demands of school in a fun, hands-on environment. Our Program provides “the gift of time” so young learners can succeed in Kindergarten. Teachers help students develop social, motor, and academic skills necessary to succeed in school. We support children in building a strong foundation for an exceptional beginning to their educational journey. Children who complete this program will be promoted to full-day Kindergarten the following year.
